Forensic Computing (Dagstuhl Seminar 11401)
Felix C. Freiling, Dirk Heckmann, Radim Polcák, and Joachim Posegga ............. 1

Computing with Infinite Data: Topological and Logical Foundations (Dagstuhl Seminar 11411)
Ulrich Berger, Vasco Brattka, Victor Selivanov, Dieter Spreen, and Hideki Tsuiki 14

Foundations of distributed data management (Dagstuhl Seminar 11421)
Serge Abiteboul, Alin Deutsch, Thomas Schwentick, and Luc Segoufin ............. 37
Aims and Scope
The periodical Dagstuhl Reports documents the program and the results of Dagstuhl Seminars and Dagstuhl Perspectives Workshops. In principal, for each Dagstuhl Seminar or Dagstuhl Perspectives Workshop a report is published that contains the following:

- A executive summary of the seminar program and the fundamental results,
- An overview of the talks given during the seminar (summarized as talk abstracts), and
- Summaries from working groups (if applicable).

This basic framework can be extended by suitable contributions that are related to the program of the seminar, e.g. summaries from panel discussions or open problem sessions.
