Real VR – Importing the Real World into Immersive VR and Optimizing the Perceptual Experience of Head-Mounted Displays (Dagstuhl Seminar 19272)
  Marcus A. Maynor and Alexander Sorkine-Hornung ....................... 143
Aims and Scope
The periodical Dagstuhl Reports documents the program and the results of Dagstuhl Seminars and Dagstuhl Perspectives Workshops. In principal, for each Dagstuhl Seminar or Dagstuhl Perspectives Workshop a report is published that contains the following:

- an executive summary of the seminar program and the fundamental results,
- an overview of the talks given during the seminar (summarized as talk abstracts), and
- summaries from working groups (if applicable).

This basic framework can be extended by suitable contributions that are related to the program of the seminar, e.g. summaries from panel discussions or open problem sessions.
