Preface

The papers in this volume were accepted for presentation at the 38th Computational Complexity Conference (CCC 2023), held between July 17–20, 2023, in Warwick, UK. The conference is organized by the Computational Complexity Foundation (CCF) in cooperation with the ACM Special Interest Group on Algorithms and Computation Theory (SIGACT) and the European Association for Theoretical Computer Science (EATCS).

The call for papers sought original research papers in all areas of computational complexity theory. Of the 74 submissions, the program committee selected 36 for presentation at the conference.

The program committee would like to thank everyone involved in the conference, including all those who submitted papers for consideration as well as the reviewers (listed separately) for their scientific contributions; the board of trustees of the Computational Complexity Foundation for their advice and assistance; the Local Arrangements Committee chair Tom Gur; Nikolas Breuckmann, Shuichi Hirahara, and Salil Vadhan for their invited talks; and Michael Wagner for coordinating the production of these proceedings.

Amnon Ta-Shma
Program Committee Chair, on behalf of the Program Committee

Program Committee

Eli Ben-Sasson, StarkWare
Andrej Bogdanov, Chinese University of Hong Kong (until Jan 2023) and University of Ottawa (after Jan 2023)
Lijie Chen, UC Berkeley
Alex Bredariol Grilo, LIP6 (CNRS/Sorbonne Université)
Mika Göös, EPFL
William Hoza, Simons Institute for the Theory of Computing
Susanna F. de Rezende, Lund University
Neeraj Kayal, Microsoft Research India
Tali Kaufmann, Bar-Ilan University
François Le Gall, Nagoya University
Raghu Meka, UCLA
Amnon Ta-Shma (Chair), Tel-Aviv University

Local Arrangements Committee

Tom Gur (Chair), University of Warwick

Board of Trustees

Amit Chakrabarti, Dartmouth College
Valentine Kabanets (President), Simon Fraser University
Michal Koucký, Charles University
Nutan Limaye IIT Bombay
Meena Mahajan, The Institute of Mathematical Sciences
Pierre McKenzie, Université de Montréal
Benjamin Rossman, Duke University
Shubhangi Saraf, University of Toronto
Ryan Williams, Massachusetts Institute of Technology
